I Save Big Money and YOU CAN TOO!

"I pride myself in being a shrewd comparative-price shopper. I'll often go to 6 or more stores to find the lowest cost. I look for sales and shop for bargains on everything from clothes to toys to sundries. But all that changed five months ago when I met an agent from the ZLC. He showed me their catalog and explained how they specialized in finding quality merchandise from companies and manufacturers in financial distress. They buy for pennies on the dollar and then sell to consumers like me at prices that are amazingly low. I couldn't believe it till I saw a microwave oven I needed for just \$39. (If I'd ordered a lot of 36 I could have paid only \$29 each.) These things normally sell for well over \$100. I was sold and have been a steady customer ever since. It also saves a bundle of time traipsing around all those stores. I just look for things I need on their website and order direct. For me, it's the ONLY way to shop!"
